

# **FLEX**5

A matter of flexibility

# A machine prepared for change

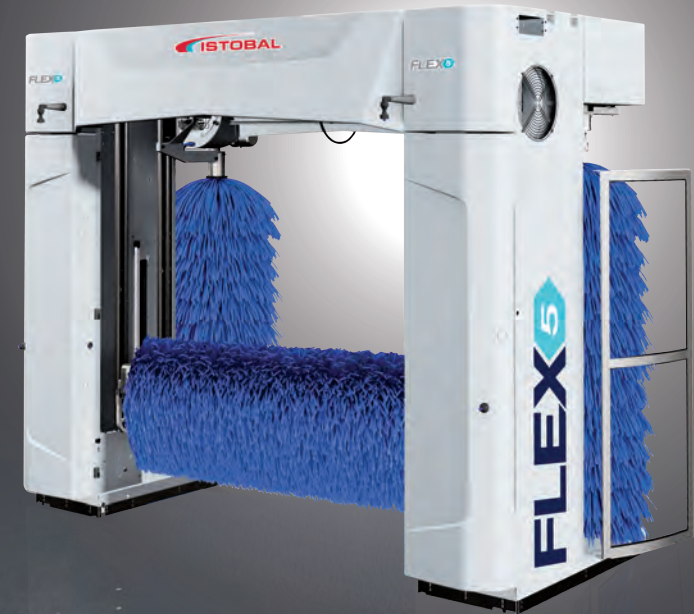

# FLEX5

FLEX5 is the only rollover in the market that is capable of using either five or three brushes without changing machines and in just eight hours.

Its countless solutions make the M'NEX range reliable, efficient and technological, with a flexibility pushed to its limits.

FLEX5 is the solution to changing needs at the car wash facility.

FLEX5 technical features:

- Wash height: 2300, 2500 and 2700 mm
- Wash width: 2500 and 2700 mm
- Zenit fairing standard for the three-brush version and Xtra fairing for the five-brush version.
- Optimised rinse and wax circuits provide a perfect finish.
- Travel and lift with variable-frequency drives.
- Complete drying as an option consisting of two side nozzles, 3 kW, and a scan-dry horizontal nozzle, 2x4 kW.
- Link-it brushes.
- Car wash concentrates **esens**
