TOTAL ROTATION CONTROL WITH ANALOG ENCODER

ISTOBAL has developed an innovative rotation system with a 360° analog encoder for rollover TRACER OH1 which offers total pipe control, maximizes wash precision and adapts to all vehicle types.

SPECIFICATIONS

- Rotation by analog signal, 4 to 20 mA.
- 32 pipe spin positions
- A position every 11.25 °
- ± 1 degree positioning precision

ADVANTAGES

- Perfect coordination between wash machine displacement and pipe spin.
- Minimisation of water and chemical product consumption.
- Maintenance is minimised.
- Better vehicle finish.
